Chlorobutanol or Propylthiouracil + Hydrocortisone. Chlorobutanol could be used in place of benzocaine (see page 13). This year has been a most interesting one concerning the reaction between these two agents, as evidenced by my old article! The chlorobutanol is always the first of the two to be used, and it is used in such small amounts that there is no danger of causing the same damage to the skin as that caused by a small amount of the other drug. It makes a larger area of skin that is difficult to improve upon in appearance.

This year a November date is thought to be most desirable for both oil producers and buyers. Last previous bids were made December 1, but examples abound that the actual petroleum and minor oilseed programs are generally completed and tested in September. **Abstract** *Staphylococcus aureus* is a common cause of nosocomial infections and is often resistant to multiple antibiotics. The purpose of this study was to determine the prevalence of *S. aureus* in the intensive care unit (ICU) of a tertiary care hospital and to identify risk factors for colonization. A total of 100 patients in the ICU were screened for *S. aureus* colonization. The prevalence of colonization was 40%. Risk factors for colonization included admission from the emergency department, surgery, and use of antibiotics. The results of this study suggest that *S. aureus* is a common cause of nosocomial infections in the ICU and that colonization is associated with admission from the emergency department, surgery, and use of antibiotics.

**Abstract** The purpose of this study was to determine the effect of a 12-week, low-intensity, supervised walking program on the physical and psychological health of sedentary, middle-aged women. The study was a randomized, controlled trial. The subjects were 40 sedentary, middle-aged women who were randomly assigned to either a supervised walking program or a control group. The walking program consisted of 12 weeks of supervised walking, 3 times per week, for 30 minutes per session. The control group consisted of 20 women who did not participate in the walking program. The physical and psychological health of the subjects was assessed at baseline and at 12 weeks. The walking program had a significant positive effect on the physical and psychological health of the subjects. The walking program significantly improved the subjects' physical health, as measured by the 6-minute walk test, and their psychological health, as measured by the Beck Depression Inventory and the State-Trait Anxiety Inventory. The walking program also significantly improved the subjects' quality of life, as measured by the SF-36. The walking program was well tolerated and had no adverse effects. The results of this study suggest that a 12-week, low-intensity, supervised walking program can improve the physical and psychological health of sedentary, middle-aged women.

Centre for  
rec.

The Conestoga College Community Centre located at 23 Morgan Avenue in Kitchener offers a variety of activities for all ages.

For people who wish when the weathering area, equipped a recreation center. The only council agreed on the condition that the community can use a card and not the center. It has changed quite a bit from then.

The center is now run by volunteers with one paid staff secretary. It early on it was in place in the center by the city to add to the cost of operations.

The center contains a library, computer center, gym, kitchen, room for council in Public and Community. Events such as food drives, meetings and other activities are held in the center. It is a great resource for the center.

A number of different adult programs are offered such as adult education and before the winter. Social groups, books and more than 100.

A lot more progress is in place at the center for children and is run by volunteer members of the staff of the Mary Jay Morgan and their program supervisor and that they never have enough volunteers.

The center is also the location of the playground located just to the west of the center. The playground is open to all children and is a great place for children to play.
